

# Memorandum

**To: Board Members**

**Date: October 16, 2005**

**From: Communication and Public Education Committee**

**Subject: Report of the Meeting of October 14, 2005**

The Communication and Public Education Committee met in a public meeting in Sacramento on October 14, 2005. A meeting summary of this meeting is provided in this tab section as Attachment 1.

## **ITEM A: Update on the Development of Consumer Fact Sheet Series with UCSF's Center for Consumer Self Care**

Background: Over one year ago, the board approved a proposal to integrate pharmacy students into public outreach activities. The project chosen was the development of a consumer fact sheet series by student interns. This project is being coordinated by the UCSF Center for Consumer Self Care.

By January 2005, the program had been initiated. By July, four fact sheets were developed, and a fifth was undergoing work by the board. The fact sheets contain general information on the topic, and contain questions consumers can discuss with their pharmacists on making wise decisions in the subject area.

At the July 2005 Board Meeting, the board agreed to establish a joint Web site with the Center for Consumer Self Care to house the many fact sheets that should soon be developed through this collaboration because 11 students had agreed to develop three fact sheets each during this school year. The Center for Consumer Self Care will develop and maintain the Web site. The board will appear as cohost. As of this time, no work has yet begun on this Web site.

At the October committee meeting, the committee reviewed three new fact sheets. According to the Center for Consumer Self Care, several additional fact sheets are under development and will be shared with the board shortly.

The committee will review this joint project with the Center for Consumer Self Care at the January 2006 committee meeting.

Throughout the meeting, the committee identified topics for additional fact sheets, including the new labeling requirements that mandate a description of the medication be placed on a prescription container, the Beers list of drugs that should not be prescribed to individuals over 75 years of age, and the importance of

information found on a container's label.

The committee also discussed the public health issues that exist surrounding a feared global pandemic of the Avian flu. Staff will gather information about what the Centers for Disease Control is doing in this area for the next meeting. The seriousness of this illness is a concern for health care policymakers as well as the public.

## **ITEM B: Update on Activities of the California Health Communication Partnership**

Background: Last year, the board voted to become a founding member of California Health Communication Partnership. This group is spearheaded by the UCSF's Center for Consumer Self Care to improve the health of Californians by developing and promoting consumer health education programs and activities developed by the members in an integrated fashion. The function of the group is to develop or disseminate integrated public information campaigns on priority health topics identified by the partnership members.

While there have been no meetings of the partnership since the July 2005 Board Meeting, the partnership has a campaign underway on screening tests for cancer (October and November 2005). The Center for Consumer Self Care received a grant to help promote these public service announcements. The materials are provided in Attachment A.

The next campaign will again focus on generics. During the winter months at public outreach events, the board will also promote the materials developed and disseminated on antibiotic misuse and resistance, the subject of the first partnership's project last year.

## **ITEM C: Update on *The Script***

The next issue of the board's newsletter, *The Script*, is currently being printed and should be distributed by mid-October to pharmacies and drug wholesalers.

Articles in this October issue promote the new recognition program for pharmacists who have been licensed for 50 years, as well as the Subcommittee on Medicare Drug Benefit Plans recently formed by the board. The bulk of the newsletter's articles will provide amplifications of Pharmacy Law, and the requirements of the board's new omnibus regulations (that took effect October 7, 2005).

The Pharmacy Foundation of California will again print and mail this issue to California pharmacists.

Staff is now initiating work on the next issue, a January 2006 issue that will focus on new pharmacy laws.

## **ITEM D: Update on *Health Notes***

*Background:* *Health Notes* is a monograph, produced by the board that contains up-to-date drug therapy guidelines for a specific subject area. Because the board produces *Health Notes*, it conveys what the board believes is current drug treatment in a particular area. Pharmacists can earn continuing education credit by completing a test published at the back of the monograph. Thus the board provides information and actually is sponsoring CE in an area of importance to the board. Seven issues have been produced since 1996. Regrettably, no issues have been published in the last two years due to lack of staff resources to commit to this project.

Under development are two issues:

1. Pain Management Issue
2. Pharmacy Emergency Response to Patients in a Declared Disaster Area

Neither publication is yet ready for publication, but articles for both have been written. Likely publication date may be late spring or summer 2006. The board will encourage outside funding once the manuscripts are finalized.

## **ITEM E: Update on Public Outreach Activities**

The board strives to provide information to licensees and the public. To this end, it has a number of consumer materials to distribute at consumer fairs and attends as many of these events as possible, where attendance will be large and staff is available.

Additionally, the board has several PowerPoint presentations on the board, on new pharmacy law and on requirements for prescribing and dispensing controlled substances it presents as continuing education courses or information presentations where a number of individuals will be present. These presentations are provided by board members or senior staff.

Public and licensee outreach activities performed since the last report to the board that have include:

- Supervising Inspector Nurse presented information about the board and how it investigates cases to a group of United States Attorneys on July 20.
- Supervising Inspector Nurse participated in a training module for federal investigators who will be monitoring fraud in the Medicare Prescription Drug Plan programs in San Diego on September 20.
- The board staffed a public information booth the City of Sacramento Public Safety Public Fair on September 24.
- The board staffed a public information booth on October 15 at the UCD Healthy Aging Fair.
- Supervising Inspector Ratcliff will present information on pharmacy law changes at an UFCW-Orange County Pharmacist Association continuing education conference on October 16.

- The board will staff an information booth at CSHP Seminar on October 21 and 22. Also several board members and the Executive Officer Harris will present information at this association meeting.

## **ITEM F: UCSD Study on Non-Prescription Syringe Sales**

The board has been asked to assist in a study being conducted by UCSD researcher Richard Garfein, PhD, MPH.

The study is being conducted in conjunction with the Department of Health Services' Office of AIDS, to evaluate Senate Bill 1159 (Vasconcellos, Chapter 608, Statutes of 2004) that allows local health jurisdictions to authorize nonprescription syringe sales by pharmacies to prevent HIV and Hepatitis.

Dr. Garfein has requested the board's assistance in several areas. Executive Officer Harris has agreed to provide this assistance in an August 3, 2005, letter (Attachment B):

- The board agreed to share a mailing list of pharmacies and pharmacists for the survey that will be planned for mid-2006.
- A copy of a survey document used previously in New York will be modified for this study. The board will have an opportunity to review the survey document before it is released.
- The board will also draft a letter supporting participation in the survey as part of the survey packet.

## **Other Informational Items From the October Committee Meeting:**

The minutes of the Communication and Public Education Committee meeting (Attachment 1) contain information about other topics discussed by the committee not specifically included on the board meeting's agenda. These include:

- Dr. Schell will draft an article for publication in mid-2006 for the *American Journal of Health-System Pharmacy*. This is in response to a request from this publication regarding how boards view disciplining and investigate pharmacists for prescription errors. A draft of the article will be developed for review at a future committee and board meeting.
- The committee notes the important consumer safety impact that will be available in January 2006, when all prescription containers must contain a physical description of the medication. Consumer alerts will be developed to make certain consumers learn this information will soon be on prescription containers.
- October is Talk About Prescriptions Month.

“Mammogram Saved My Life”  
by  
Candi Cohen

### *Women's Health*

#### Mammogram Saved My Life

by Candi Cohen

Information Officer, Medical

Board of California

(NAPSA)—Here's a story of how vital it can be to take medical tests.

Not long ago, a mammogram saved my life. I never thought I'd get breast cancer. I had no history of it in my family—no lump. I wasn't a smoker, didn't drink and watched what I ate.

**It's your life. If you're a woman over 40, get an annual mammogram.**

Thankfully, each year since I was 40, I got a mammogram (special x-rays of the breast that can detect cancer). At 51, my mammogram showed I had a problem. I had a needle biopsy to remove a little bit of tissue to test it for cancer. My doctors found a tiny, aggressive cancer in my breast—so small it was actually removed by the biopsy itself. Because I'd caught it so early, my doctors think I'll be fine.

If you're a woman over 40, please get an annual mammogram. If you can't afford one, call your state department of health or 1-800-4 CANCEER.

Here's an added tip. Early screening is also good for men. It's worth asking the men in your life who are over 50 if they've been screened for prostate cancer.

*\* This message comes from the California Health Communication Partnership, which is supported by the Oliver and Jennie Donaldson Charitable Trust.*

Department of Family and Preventive Medicine,  
University of California San Diego School of Medicine,  
9500 Gilman Drive, mailstop 0622  
San Diego, CA 92093

Dear Dr. Garfein:

I am pleased to learn that the University of California, San Diego in collaboration with the California Department of Health Services Office of AIDS, is planning to conduct an evaluation of Senate Bill 1159 (Vasconcellos, Statutes of 2004, Chapter 608) that allows local health jurisdictions to legalize nonprescription syringe sales as a means of HIV and hepatitis prevention. I understand that the results of your evaluation will be included in a report to the Governor and Legislature as mandated by this law. I also understand that as a part of your evaluation, you plan to survey a random sample of pharmacists throughout the state regarding their knowledge, attitudes and practices towards over-the-counter syringe sales and other facets of this law.

The California Board of Pharmacy is willing to assist you in your evaluation. First, we can provide you with a statewide list of registered pharmacists and their address of record, which you can use to select subjects for your pharmacist survey. Second, we would be happy to review and provide comments on your survey instrument. And third, we may be able to improve the response rate for your survey by providing you with a cover letter expressing the Board of Pharmacy's endorsement of this study.

This new law, which makes syringes available without a prescription, has many potential direct and indirect influences on public health in California. The Board of Pharmacy is interested in assisting you in your study.

Sincerely,

A handwritten signature in cursive script that reads "P. J. Harris".

Patricia Harris  
Executive Officer  
Board of Pharmacy

                             **Robert Ratcliff, Supervising Inspector**  
                             **Jan Perez, Legislative Coordinator**

---

Chairperson Zinder called the meeting to order at 9:40 a.m.

**Development of Consumer Fact Sheet Series with UCSF's Center for Consumer Self Care**

The committee reviewed the three new fact sheets developed by UCSF pharmacist interns. Ms. Herold stated that these fact sheets had only been recently received by the board and had not yet been reviewed.

Of special interest to the committee is the "Don't Flush Your Medicines Down the Toilet!" fact sheet. Chairperson Zinder stated that it conveys important information not frequently known by the about the public about the improper disposal of prescription medication down toilets or in landfills. This fact sheet will be sent to the Department of Health Services for its comments on the disposal technique listed.

The committee discussed the need for future materials on flu shots in light of recent articles questioning the value of flu shots. The committee suggested that encouraging pneumonia shots may be a worthwhile fact sheet.

Ms. Herold added that a fact sheet on the Beers list of drugs that should not be prescribed for those over 75 years of age will be done by the UCSF interns.

Ms. Herold added that since the July Board Meeting, there have been no further discussions with the Center for Consumer Self Care on the joint Web site for housing the consumer fact sheet series. This project will be pursued in the future as more fact sheets are developed. The goal of the Web site is to make it easier for the public to find the fact sheet they want from the many that the board and center hope will be housed there.

### **Activities of the California Health Communication Partnership**

There have been no meetings of the partnership since the July Board Meeting. The next partnership meeting is planned for the end of October.

The committee reviewed the most recent project of the partnership, a campaign stressing the need for cancer screenings for men and women. Copies of the public services announcements and consumer articles developed were shared. A grant was obtained to permit wider distribution of these materials.

The next project will be a renewed campaign highlighting generics. Also the board may resume promotion of the antibiotic misuse campaign initiated last winter.

The committee discussed the emerging health issues surrounding the virulent avian flu. Health advocates are looking with concern for the potential for a global pandemic of this disease. Staff will bring this issue to the partnership. Staff will also contact the Centers for Disease Control to see where this agency is in terms of developing public information, and how public health organizations will be directed to respond.

### **New Labeling Requirements for Prescription Containers Begins January 1, 2006**

The committee reviewed an article that will appear in *The Script's* October 2005 edition on California's requirements that medication labels contain a description of the appearance of the medication beginning January 1, 2006.

The committee suggested that this become another consumer fact sheet developed by the pharmacist interns.

### **Article on Prescription Errors for the *American Journal of Health-System Pharmacy***

The committee discussed the opportunity offered to the board, specifically to Dr. Schell, to write an article on the board's philosophy of disciplining pharmacists for prescription errors.

The editor of the *American Journal of Health-System Pharmacy* has asked several boards to respond with articles on whether pharmacists should be disciplined for prescription errors, or repeated medication errors, how these matters are investigated and the priority given to investigating such complaints. Also at what point does the board consider a pharmacist, rather than a system, to be at fault?

The article is not desired for publication until mid-2006, so Dr. Schell will develop a draft and bring it to a future committee meeting. Discussion is also likely to occur during the October Board Meeting on the topic.

### **Update of *The Script***

The committee reviewed preprints of the October 2005 *The Script*. The newsletter will be mailed to pharmacies and wholesalers in mid-October. A copy will be online before the October Board Meeting. The issue focuses on pharmacist and wholesaler education about new laws.

The Education Foundation of California is mailing the issue to all California residing pharmacists.

The next issue is planned for January 2006, and will focus on new pharmacy law.

### **Update of *Health Notes***

Two issues of *Health Notes* are underdevelopment, but neither issue has a completed and edited manuscript. Production of "Pain Management" and "Disaster Response by Pharmacy" is not likely before the summer of 2006.

### **FDA's Useful Written Consumer Medication Information**

The committee discussed the FDA's July *Federal Register* notice (and deadline) seeking comments about the usefulness to consumers of written information that accompanies prescription medication. The committee

also discussed the NABP's response that was shared with the committee, which was essentially a resolution that NABP work with interested stakeholders, including manufacturers, to encourage that all prescription labels contain a pictorial representation or description of the appearance of the medication.

In California, the appearance of the medication must be provided on a container's label in January 2006.

However, the committee expressed the need for more work in this area since according to a national survey conducted in 2001, only 50 percent of the 89 percent of the people who receive written information with their medications find the written information useful.

Chairperson Zinder and Board Member Benson both stated that their organizations would be interested in sending out the mass mailings of the completed fact sheet describing the importance of reviewing the physical description of medication that will be required to appear on the label.

The committee also suggested that in addition to a fact sheet highlighting looking for the description of the medication on the label, that another fact sheet be done on advising patients about the usefulness of other information on a prescription container's label.

### **UCSD Study on Legalizing Nonprescription Syringe Sales**

Richard Garfein, PhD., MPH, has asked the board's help in conducting a study of pharmacist's perceptions to the legalization of syringe sales without a prescription as a means to prevent the spread of disease. Board Member Powers stated that he encourages the board's support and participation in this study which is also being done in conjunction with the Department of Health Services' Office of AIDS.

Executive Officer Harris has agreed to assist this study by providing a list of pharmacist and pharmacy addresses and review of the survey document. A letter was also mailed providing the board's encouragement of the study.

### **Miscellaneous Consumer Articles in the Media**

The committee reviewed consumer articles appearing in the media recently.

The committee also noted that October is Talk About Prescriptions Month, and reviewed recent public information from the National Council on

Patient Information and Education (NCPIE) that was an originator of Talk About Prescriptions Month.

The board hopes to be able to participate in promoting Talk About Prescriptions Month in the future. The partnership will be approached about initiating activities for next year's event.

### **Update on the Board's Public Outreach Activities**

The committee reviewed the public outreach activities of the board and board staff. The activities reported are:

- Supervising Inspector Nurse presented information about the board and how it investigates cases to a group of United States attorneys on July 20.
- Supervising Inspector Nurse participated in a training module for federal investigators who will be monitoring fraud in the Medicare Prescription Drug Plan programs in San Diego on September 20.
- The board staffed a public information booth the City of Sacramento Public Safety Public Fair on September 24.
- The board will staff a public information booth on October 15 at the UCD Healthy Aging Fair where 750 people will attend.
- Supervising Inspector Ratcliff will present information on pharmacy law changes at a UFCW-Orange County Pharmacist Association continuing education conference on October 16 to approximately 200 pharmacists.
- The board will staff an information booth at CSHP Seminar on October 21 and 22.  
Several board members will present information at this association meeting.
- Supervising Inspector Ming will present information about pharmacy law to a group of UCSD pharmacy students in mid-November.
- Assistant Executive Officer Herold will present information about the board to a group of UCSD pharmacy students on November 28.
- Supervising Inspector Ming will present information about sterile compounding to a group of pharmacy technician students at Santa Ana College on November 30.
- Board Member Jones will present information about pharmacy technology at the NABP Fall Conference in December.

### **Adjournment**

There being no additional business, Chairperson Zinder adjourned the meeting at 11:40 a.m.

## Meeting Summary

### Subcommittee on Medicare Drug Benefit Plans

October 14, 2005

1-3:30 p.m.

Board of Pharmacy  
400 R Street, Suite 4080  
Sacramento, California

Present: Stanley Goldenberg, Board President  
Bill Powers, Board Vice President  
Andrea Zinder, Board Member  
John Jones, Board Member

Patricia Harris, Executive Officer  
Virginia Herold, Assistant Executive Officer  
Jan Perez, Legislative Coordinator  
Judi Nurse, Supervising Inspector  
Robert Ratcliff, Supervising Inspector

---

President Goldenberg called the meeting to order at 1:05 p.m.

He explained that the purpose of the meeting is to discuss the implementation of the Medication Prescription Drug Act, and specifically the Part D Benefit. These changes, which will begin January 1, 2006, represent an enormous change in the Medicare benefit program. These changes will affect Medicare beneficiaries, their families and caregivers as well as pharmacists, physicians, nurses and patient advocates. Additional changes will affect Medicaid patients and their caregivers. Because of the complexity of the new law, significant learning will need to take place so that beneficiaries and providers understand how to use the new benefits.

President Goldenberg stated that his hopes are that the regulatory agencies will take a strong lead in educating their licensees about the new provisions. Patients and their families will seek information from their health care providers, and lack of knowledge by the health care providers will place additional strains on patients and health care advocates to obtain and provide this information. He added that patients in skilled

nursing homes have special needs and expressed concern that this group is adequately cared for in roll-out provisions.

Lucy Saldana, PharmD, Centers for Medicare and Medicaid Services provided a PowerPoint Presentation on the federal Medicare Prescription Drug Act. Dr. Saldana's PowerPoint presentation is added as an attachment to this meeting summary (Attachment 1).

Information was mailed to beneficiaries in October about selecting a plan. Several corrections have been made to this material, and the corrected version of the manual is available from the CMS Web site ([www.cms.gov](http://www.cms.gov)).

In California, there are 160 plans available. On October 17, consumers will be able to identify the specific medications that will be offered by each plan. Dr. Saldana stated that there is a calculator available online that will help individuals identify the best plan for them based on the medication they take.

Teri Miller, PharmD, Senior Pharmaceutical Consultant, MediCal Policy Division of the California Department of Health Services, next provided an overview of the where the state is with respect to those 1 million individuals who are duly eligible for Medicaid and Medicare programs. Dr. Miller's presentation focused on the plan's major provisions and implementation challenges for California.

Dr. Miller and Dr. Saldana answered a number of questions from those in the audience.

Betty Thurman, representing HICAP and John Gallapaga asked questions regarding specific coverage of the new plan. HICAP is doing significant public outreach and assistance to educate individuals about the new plans.

Kim FitzGerald, Public Affairs Specialist, Social Security Administration, stated that her agency continues also to do beneficiary outreach and education for the Medicare Prescription Drug Plan. There is one outreach coordinator in each Social Security Office.

Ms. FitzGerald stated that Medicare beneficiaries whose income and assets may qualify them the enhanced coverage for low-income individuals should be directed to [www.socialsecurity.gov](http://www.socialsecurity.gov) or to call 1-800-772-1213 or 1-800-MEDICARE.

Many questions centered on issues from patients' perspectives revolving around how to select the best plan for any individual patient.

Scams have appeared to "help" individuals learn about the new benefits that could result in identity theft or just outright theft.

This is a new process, and pharmacists and physicians will need to become knowledgeable about the plans to become successful in securing an appeal of a denied

drug. However, this information is not yet available. Dr. Miller stated that backup contingencies are being developed that will help direct providers with questions to useful sources after the January 1 implementation.

President Goldenberg thanked the presenters and advocated for future meetings where California's health care provider regulatory boards would be active participants. He also again emphasized that patients need access to clear and accurate information about selecting a plan. Many participants in this meeting are developing or working on this component.

President Goldenberg thanked those present for their participation and adjourned the meeting at 3:15 p.m.

## Modernizing Medicare: Prescription Drug Benefit - Part D *An Update*

Lucy Saldaña, Pharm.D, Region IX  
Centers for Medicare & Medicaid Services  
California State Board of Pharmacy  
October 14, 2005  
Sacramento, California

CMS

## Medicare Prescription Drug Coverage Background

- Today, ~24% of people with Medicare DO NOT have prescription drug coverage
- Estimated 43 million people with Medicare will be eligible for Medicare prescription drug coverage in 2006
  - ~91% (39 million) will receive drug coverage through a Medicare drug plan or through an employer/union retiree plan that is eligible for retiree drug subsidy

CMS

## Overview of Medicare Populations in 2006 (in millions)

\* Coverage that is, on average, at least as good as standard Medicare prescription drug coverage

CMS

## Future Demographics

The number of people Medicare serves will nearly double by 2030.

## Eligibility and Enrollment

CMS

## Medicare Review

- Part A
  - Hospital insurance that pays for inpatient hospital stays, care in a skilled nursing facility, hospice care and some home health care
- Part B
  - Medical insurance that helps pay for doctors' services, outpatient hospital care, and other medical services that are not covered by Part A
- Part C
  - Managed care (enacted as Medicare + Choice in 1997)
- Part D
  - Prescription Drug Benefit (1/1/06)

CMS

## Eligibility and Enrollment

- Must be eligible to Medicare Part A and/or enrolled in Part B
- Reside in plan's service area
- Enroll in Medicare drug plan, higher premium for delay in enrollment
- Initial enrollment: Nov 15, 2005 – May 15, 2006
- Enrollment 2006 and beyond: Nov 15 – Dec 31

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Eligibility and Enrollment

- Eligible individuals may enroll in a
  - Prescription Drug Plan (PDP) or
  - Medicare Advantage Prescription Drug plan (MA-PD plan)
- Individuals enrolled in an MA plan must receive prescription drug coverage from the MA-PD plan
- Employee Coverage

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Auto-Enrollment

- Medicaid prescription drug coverage for people with Medicare and Medicaid ends 12/31/05
- People with Medicare and Medicaid who *do not* enroll in a plan by 12/31/05
  - CMS will enroll them in a drug plan with a premium covered by the extra help
  - Their Medicare prescription drug coverage will begin 1/1/06
- People with Medicare and Medicaid have a SEP
  - Can change plans any time

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Special Enrollment Period

- Permanent move out of the plan service area
- Individual entering, residing in, or leaving a long-term care facility
- Involuntary loss, reduction, or non-notification of coverage as good or better than Medicare
- Other exceptional circumstances

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Creditable Coverage

Creditable Coverage is defined as coverage that is, on average, at least as good as standard Medicare prescription drug coverage

Examples:

- Group Health Plan (GHP)
- VA coverage
- Military coverage including TRICARE

Note: The source of the current drug coverage will send a notice telling the person if it is at least as good as Medicare prescription drug coverage

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Postponing Enrollment

- Higher premiums for people who wait to enroll
  - Exception for those with prescription drug coverage at least as good as a Medicare prescription drug plan
- Assessed 1% of base premium for every month
  - Eligible to enroll in a Medicare drug plan but not enrolled
  - No drug coverage as good as a Medicare prescription drug coverage for 63 consecutive days or longer

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## 2006 Standard Benefit

\$32 monthly premium then

### Coverage Ranges

Benefit Stages	From:	To:	% Covered by Benefit	TrOOP
Annual Deductible	\$0	\$250	0%	(\$250)
Initial Coverage	\$250.01	\$2,250	75%	(\$500)
Coverage Gap	\$2,250.01	\$5,100 <sup>1</sup>	0%	(\$2,850)
Catastrophic Coverage	\$5,100.01	No Maximum	95% <sup>2</sup>	(\$3,600)

<sup>1</sup> Catastrophic coverage begins when the beneficiary satisfies the \$3,600 TrOOP requirement.

<sup>2</sup> Medicare is liable for 80% and the PDP is liable for 15%

**CMS**

## Medicare Drug Plans

- Must offer basic drug coverage
  - Standard benefit
- May offer supplemental benefits
  - Enhanced benefit
- Can be flexible in benefit design
  - May look different than standard benefit
  - May have different co-pay or co-insurance
  - Cannot change actuarial equivalence

**CMS**

## Information About Extra Help

- Must be eligible for Medicare prescription drug coverage
- Some groups are automatically eligible (deemed)
- Encouraged to apply before enrollment in PDP or MA-PD
- Income < 150% of FPL for family size
- Resources not exceeding \$11,500 (\$23,000 for married couples)
- Apply at State Medicaid Agency, local Social Security office, ssa.gov, mailings, community partners

**CMS**

## What Payments Count Towards TrOOP?

- In addition to the person with Medicare, payments counting towards TrOOP may be made by:
  - Another individual (e.g., a family member or friend)
  - A State Pharmaceutical Assistance Program (SPAP) as defined under §1860D-23
  - A bona fide charity, or
  - A Personal Health Savings Vehicle (Flexible Spending Account, Health Savings Accounts, and Medical Savings Accounts)

**CMS**

## What Payments Do Not Count Towards TrOOP?

Coverage by "insurance or otherwise, a group health plan or other third party" payer does not count towards TrOOP. These include:

- Group Health Plans (e.g., employer/retiree plans)
- Government programs (TRICARE, the V.A., etc.)
- State-run programs that do not meet the definition of SPAPs under §1860D-23
- Workers' Compensation
- Drug plans' supplemental or enhanced benefits
- Automobile/No-Fault/Liability

**CMS**

## Medicare Prescription Drug Coverage

- Prescription drugs, biologicals, insulin
- Medical supplies associated with injection of insulin
- When a drug is not FDA approved for an indication but it has clinical literature to support its use
- Vaccines not covered by Part B
- A drug plan may not cover all drugs
- Brand name and generic drugs will be in each formulary

**CMS**

## Excluded Drugs

- Drugs for
  - Anorexia, weight loss, or weight gain
  - Fertility
  - Cosmetic purposes or hair growth
  - Symptomatic relief of cough and colds
- Prescription vitamins and mineral products
  - Except prenatal vitamins and fluoride preparations
- Non-prescription drugs
- Barbiturates
- Benzodiazepines

**CMS**  
Centers for Medicare & Medicaid Services

## Medicaid

- States *may* still cover drugs not covered by a Medicare drug plan
  - SPAPs can cover non-formulary drugs
  - Medicaid may cover excluded drugs
- If Medicaid pays for those excluded drugs in its traditional Medicaid population then it **MUST ALSO** pay for them in the dual eligible population.
- Medicaid will need data exchanges if it is to coordinate drug coverage

**CMS**  
Centers for Medicare & Medicaid Services

## Medicare Benefit Claims Processing

- Standard Benefit Card
- Drug Plans are required to track TrOOP costs for beneficiaries enrolled in their plan
- Pharmacies, Drug Plans, Insurers, Employers, and CMS will work together electronically to coordinate benefits
- Allows pharmacist to perform a beneficiary LOOK UP to determine insurance coverage
- Informs the pharmacy in real time of primary and secondary payers
  - Including information to process claim
- Allows drug plan the best possible chance to accurately track TrOOP costs

**CMS**  
Centers for Medicare & Medicaid Services

## Waiving of Co-Payments

- Pharmacies are permitted to waive or reduce cost-sharing amounts provided they do so in an unadvertised, non-routine manner
- The co-pay may be waived after determining the beneficiary is financially needy or after failing to collect the cost-sharing portion
- For low-income subsidy individuals only, pharmacists can waive or reduce co-payments routinely (but cannot advertise as such)

**CMS**  
Centers for Medicare & Medicaid Services

## Medicare Part A and Part B Drug Coverage

- There **WILL** still be Part A and Part B drugs
- Part A drugs
  - Drugs bundled together with hospital payment
- Part B drugs
  - 1. Drugs delivered in MD office
  - 2. Drugs delivered in by medical equipment
  - 3. Few outpatient chemo and immunosupp's
  - 4. Hospital outpatient drugs billed separately
  - 5. ESRD drugs (i.e. EPO)

**CMS**  
Centers for Medicare & Medicaid Services

## Enrolling in a Plan

- Call the local HICAP 1-800 434-0222
- State Medicaid Office
- Visit [www.medicare.gov](http://www.medicare.gov) and get personalized information
- U.S. Administration on Aging at [www.eldercare.gov](http://www.eldercare.gov) or 1-800-677-1116
- Call 1-800-MEDICARE
  - TTY users should call 1-877-486-2048
- Contact the Plans themselves

**CMS**  
Centers for Medicare & Medicaid Services

## The Medicare Prescription Drug Plan Finder

The Medicare Prescription Drug Plan Finder Will:

- Only be accessible through [www.medicare.gov](http://www.medicare.gov).
- Provide plan cost, drug pricing and pharmacy network information for all PDPs and MA-PDs
- Provide ranking of plan's net cost based on beneficiary's location, income level, drugs, and pharmacy selection
- Update pricing information weekly
- Live October 17, 2005

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Web Tools

[www.medicare.gov](http://www.medicare.gov)

- Medicare Prescription Drug Plan Savings Calculator
- Medicare Prescription Drug Plan Finder
- Medicare Personal Plan Finder

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Medicare Prescription Drug Plan Savings Calculator

- Allows user to enter in their monthly drug costs and state currently residing
- Estimated annual savings information by enrolling in a Medicare prescription drug plan
- Calculations based on defined standard benefit and lowest premium amount offered by plan in that region

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Medicare Prescription Drug Plan Finder

- Customized cost sharing information for Prescription Drug Plans
- MA-PD and Special Needs Plans based on an individual's eligibility
- Extra help based on individual's eligibility

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Medicare Prescription Drug Plan Finder

Three search options available

- Authentication route
- General Search route
- Enroll Directly Route (available 11/15/05)

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Medicare Prescription Drug Plan Finder

- Authentication Route
  - Enter HICN, Last Name, DOB, Medicare Part A or Part B effective date and zip code
  - Customize messaging regarding what actions they should take pertaining to Part D
  - Display current plan enrollment information and cost share information based on eligibility for LIS

**CMS**  
CENTERS FOR MEDICARE & MEDICAID SERVICES

## Medicare Prescription Drug Plan Finder

- General Search Route
  - Enter list of your medication
  - Detailed cost sharing information for available PDPs
  - Based on how you answer question rather than Medicare data for the individual

*CMS*  
U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

## Medicare Prescription Drug Plan Finder

- Enroll Directly Route
  - Available November 15, 2005
  - Know what PDP they will enroll
  - Easy access to the Online Enrollment Center to submit an enrollment form to the plan of their choice

*CMS*  
U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

## Medicare Prescription Drug Plan Finder

- Drill down to the level of detail for the plans
- Information includes: formulary, Networks, cost sharing, deductibles, premiums and prescription copays/coinsurance and whether or not will reach the coverage gap or catastrophic coverage level
- Spanish version available

*CMS*  
U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

## Medicare Personal Plan Finder

- Original Medicare, Medicare Advantage Plans (PFFS and Cost Benefit Plans) and Medigap plans
- MA-PD information added in October
- Links between Medicare Personal Plan Finder and the Prescription Drug Plan Finder

*CMS*  
U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

## Medicare Personal Plan Finder

- Ability to search by State, County or Zip Code
- Initial results proved high level coverage information for Original Medicare, MA plans and Medigap plans based on search criteria
- Drill down to coverage information

*CMS*  
U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

## Medicare Prescription Drug Coverage Timeline

- January 21, 2005 - Final Rule published
- June 6 - Bid submission
- July - Final pharmacy contracts
- September 23 - Drug plans announced
- October 1 - Marketing begins
- October 17 - Prescription Drug Plan Finder Tool
- November 15 - Enrollment begins
- January 1, 2006 - Coverage begins

**Strategic Plan Status Report**  
**First Quarter 2005-06**  
**Communication and Public Education Committee**

<b>Goal: 4: Provide relevant information to consumers and licensees.</b> <b>Outcome: Improved consumer awareness and licensee knowledge.</b>
---

<b>Objective 4.1:</b>	<b>Develop 10 communication venues to the public by June 30, 2006.</b>
<b>Measure:</b>	<b>Number of communication venues developed to the public</b>
<b>Tasks:</b>	<ol style="list-style-type: none"> <li>1. Convert <i>Health Notes</i> articles into consumer columns or fact sheets for wide dissemination to the public.</li> <li>2. Develop and update public education materials. <ul style="list-style-type: none"> <li><i>August 2003: Board finalizes purchasing drugs from Canada brochure and revises discount drugs available to Medicare beneficiaries.</i></li> <li><i>October 2003: Emergency Contraception fact sheet has suggested revisions to reflect new treatment guidelines.</i></li> <li><i>Four brochures targeted for translation into Spanish (Emergency Contraception, Purchasing Drugs for Less, Purchasing drugs from foreign countries and discount drug prices available to Medicare Beneficiaries)</i></li> <li><i>Board approves revised fact sheet at October Board Meeting</i></li> <li><i>February 2004: Nine translations of the Emergency Contraception fact sheet are place on board Web site.</i></li> <li><i>April 2004: Information about preventing fraud for those who are planning the purchase of Medicare Drug Discount Cards developed and put online.</i></li> <li><i>Board to consider project with UC schools of pharmacy to use interns to develop informational fact sheets for the public.</i></li> <li><i>October 2004: Informational fact sheet series that will be developed with UCSF pharmacist interns ready for development of the first three topics</i></li> <li><i>January 2005: Three fact sheets developed and distributed: "Generic Drugs," "Cut Your Drug Costs," and "Is Your Medicine in the News?"</i></li> <li><i>March 2005: Two additional fact sheets developed and undergoing revisions: "Antibiotics," and "Did You Know, Good Oral Health Means Good Overall Health!"</i></li> <li><i>May 2005: Board promotes consumer education materials on generics at all public outreach events and fairs.</i></li> <li><i>July 2005: Board receives translations of "Buying Drugs from the Internet" and "How to Reduce Your Drug Costs" in Spanish, Mandarin and Vietnamese.</i></li> <li><i>Committee begins development of extensive fact sheet series with UCSF. Within six months, more than 20 fact sheets should be ready.</i></li> <li><i>October 2005: Three new fact sheets developed by the pharmacist interns at UCSF.</i></li> </ul> </li> </ol>

	<p><i>The October 2005 <u>The Script</u> is mailed to pharmacies and wholesalers.</i></p> <p>3. Maintain a vigorous, informative Web site.</p> <p><i>July 2003: Materials for public meetings, including board meetings and most committee meetings placed on Web site for downloading by the public.</i></p> <p><i>August 2003: New staff person assigned to revamp Web site, who completes Web site development training</i></p> <p><i>September 2003: Board completes pilot testing for integration of enforcement information into license verification portion of Web site. The board will add this look-up feature before January 1, 2004.</i></p> <p><i>October 2003: SB 361 enacted which will authorize verification of licensure when info is downloaded from the board's Web site.</i></p> <p><i>November 2003: Board adds information regarding new exam procedures and requirements to applicants for a pharmacist license</i></p> <p><i>December 2003: Enforcement status data undergoes pilot testing before full implementation and activation into license verification section of Web site.</i></p> <p><i>Address of records of board licensees added to Web site</i></p> <p><i>January 2004: Board updates Pharmacy Law and Index to reflect new laws. New pharmacy technician form placed online</i></p> <p><i>February 2004: Security printer applications and instructions placed online. Emergency contraception fact sheets in 10 languages now available online</i></p> <p><i>March 2004: Material explaining new prescribing and dispensing requirements for controlled substances placed online. California pharmacist examination Candidates' Handbook placed online. Sample test questions also developed and placed online. <u>The Script</u> March 2004 added to Web site. Legislative analyses on bills affecting the practice of pharmacy or the board's jurisdiction placed online.</i></p> <p><i>April 2004: Information about preventing fraud for those who are planning the purchase of Medicare Drug Discount Cards developed and put online.</i></p> <p><i>June 2004: Web site includes information on implementation of new prescribing and dispensing requirements for controlled drugs in California, including a Powerpoint presentation.</i></p> <p><i>October 2004: Web site being redesigned to comply with Governor Schwarzenegger's directives for state agencies, this process should be complete by January 1.</i></p> <p><i>December 2004: Redesigned Web site activated.</i></p> <p><i>January 2005: Three new consumer fact sheets added to Web site. Web link added to FDA materials on antibiotic misuse: "Preserve a Treasure."</i></p> <p><i>The board adds its own Pharmacy Law 2005 with updated index to Web site</i></p> <p><i>February 2005: the January 2005 issue of <u>The Script</u> added to the Web site.</i></p> <p><i>March 2005: Exact text of all changes to Pharmacy Law enacted</i></p>
--	--

	<p>during 2004 added online in special area due to the large number of new laws enacted.</p> <p>Board disseminates information prepared by the Department of Health Services about drug recall of compounded medication that could be contaminated.</p> <p>July 2005: Work begins on revisions to the board's Web site. The board had 3.8 million hits to its Web site during the fiscal year 2004/05.</p> <p>October 2005: <i>The Script</i> put online. Board creates area on web for information about hurricane Katrina and Rita relief efforts</p> <p>4. Sponsor "Hot Topics" seminars to the public.</p> <p>July 2003: This series, sponsored by UCSF, the Department of Consumer Affairs and the board, concluded in May 2003. All parties are interested in resuming this project if staff are available to coordinate.</p> <p>The first of consumer fact sheets developed from this series is drafted for board review by the Department of Consumer Affairs.</p> <p>5. Evaluate the need for public education for patients who need to request prescription labeling in a language other than English.</p> <p>June 2004: committee discusses this topic as a possible fact sheet for the public. Patient literacy and its impact on medication compliance discussed by committee.</p> <p>April 2005: board staff attend two-day seminar on patient literacy and its impact on developing useful public information on health care topics.</p> <p>6. Participate as founding member of the California Health Communication Partnership, to help integrate public information outreach campaigns among diverse health care providers and educators</p> <p>July 2004: Board agrees to join this coalition of health care educators</p> <p>September 2004: Board attends first meeting, the group elects to promote antibiotic misuse materials developed by the FDA</p> <p>October 2004-January 2005: Board attends four meetings of the partnership.</p> <p>January 2005: Board publishes "Preserve a Treasure" in <i>The Script</i>. This is the first coordinated project of the partnership. Plans begin for the May campaign on generic drugs.</p> <p>February –April 2005: Three meetings of the partnership occur where plans for promoting generic medications in May are coordinated. Plans begin for campaign for November where cancer screening for women (mammogram) and men (prostate exams) will occur. Radio public service announcements are prepared.</p> <p>May 2005: Generics campaign underway to promote these drugs as alternatives to more expensive, brand name drugs. Board and FDA produced materials on generics distributed at public fairs and events during Seniors Month.</p> <p>Executive officer provides poster presentation at the National</p>
--	--

	<p><i>Association of Boards of Pharmacy Annual Meeting on the Partnership.</i></p> <p><i>July 2005: focus of future efforts are to promote cancer screening (mammograms for women, prostate tests for men) aimed at the fall and again, generic drugs..</i></p> <p><i>Partnership begins seeking grants to more widely promote generic drugs as PSA or consumer health articles.</i></p> <p><i>September 2005: cancer screening PSAs and consumer articles released.</i></p> <p>7. Implement subscriber e-mail notification system to advise interested parties about additions to the board's Web site</p> <p><i>October 2004: implemented system</i></p> <p><i>January 2005: system promoted in the board's The Script newsletter.</i></p> <p><i>March 2005: system used to notify subscribers about recall of compounded medication that could be contaminated.</i></p> <p><i>June and July 2005: system activated repeatedly to alert subscribers about meeting agendas and packets available on the board's Web site for downloading.</i></p> <p><i>July 2005: Over 1,800 individuals now subscribe to this service. Approximately 75 new subscribers are added each month.</i></p> <p>8. Participate in the California Tobacco Control Alliance's Smoking Cessation Benefits Everyone campaign</p> <p><i>July 2004: Board endorses program.</i></p> <p>9. Participate in the Circle of Advisors, a group of the Pharmacy Access Partnership</p> <p><i>October 2004: Attend October meeting.</i></p>

<b>Objective 4.2:</b>	<b>Develop 10 communication venues to licensees by June 30, 2006.</b>
<b>Measure:</b>	<b>Number of communication venues developed to licensees</b>
<b>Tasks:</b>	<p>1. Publish <i>The Script</i> two times annually.</p> <p><i>October 2003: The Script is published and mailed to all pharmacies. CPhA's Education Foundation will print and mail the newsletter to all California pharmacists</i></p> <p><i>November 2003: CPhA's Education Foundation mails October The Script to all pharmacists.</i></p> <p><i>January 2004: Articles for the next issue of The Script are completed and sent for legal review.</i></p> <p><i>March 2004: The Script is published and mailed to all California pharmacies.</i></p> <p><i>April 2004: The March issue is provided to CPhA's Pharmacy Foundation of California for printing and mailing copies to California pharmacists.</i></p> <p><i>Board begins contract solicitation for future issues.</i></p> <p><i>April 2004: Board agrees to work with UCSF to development and promote monograph on Atrial Fibrillation.</i></p> <p><i>June 2004: Contract for newsletter editor awarded for next two</i></p>

	<p>years</p> <p>August 2004: Board hires retired annuitant to develop newsletter.</p> <p>January 2005: Board publishes January 2005 issue of <i>The Script</i>.</p> <p>July 2005: Board writes articles for next newsletter which are undergoing review by staff.</p> <p>October 2005: <i>The Script</i> published and mailed to California pharmacies and wholesalers, and placed online.</p> <p>2. Publish one <i>Health Notes</i> annually.</p> <p>September 2003: Discussions begin to coordinate a major revision to "Pain Management" <i>Health Notes</i>, updating treatment information as well as new requirements for prescribing and dispensing controlled drugs in California enacted by SB 151, which will take effect in a series of stages throughout 2004.</p> <p>November 2003: Authors for "Pain Management" selected and commit to writing articles, which are due in late January.</p> <p>February – April 2004: board receives and edits articles from authors</p> <p>April 2004: Board agrees to work with UCSF to produce a future issue on smoking cessation. Outside funding will be sought for development of this issue.</p> <p>June 2004: Board Member Schell edits articles for new "Pain Management" <i>Health Notes</i>.</p> <p>October 2004: Board staff edits for "Pain Management"</p> <p>January 2005: Board approves development of "Pharmacy Disaster Response" which is targeted for publication later this year.</p> <p>3. Develop board-sponsored continuing education programs in pharmacy law and coordinate presentations at local and annual professional association meetings throughout California.</p> <p>July 2003: Board presents Powerpoint continuing education program to 35 MediCal staff in Los Angeles and 60 pharmacists at local association meeting in Santa Barbara.</p> <p>September 2003: presentation to 40 pharmacists at the Long-Term Care Academy.</p> <p>Board Member Jones attends the Indian Pharmacist Association Meeting to present board Powerpoint presentation.</p> <p>October 2003: Presentation and information booth provided at CSHP's Seminar 2003</p> <p>December 2003: Board provides continuing education to 80 pharmacists at Coachella Valley local association</p> <p>January 2004: Board provides compounding pharmacy information to 25 health directors of large hospital chain in U.S.</p> <p>February 2004: Board presentation to 125 pharmacists and students at USC's School of Pharmacy, and later in the month new pharmacy law changes presented to 125 students at UCSF's School of Pharmacy.</p> <p>Board CE presentation provided to Circle of Advisors Meeting of the Pharmacy Access Partnership</p> <p>March 2004: Board CE presentation provided to 125 students at UCSF</p>
